Is the substance hazardous to health when:

Breathed in Swallowed In contact with skin In contact with eyes Other. Please specify

Health risks: May cause irritation to eyes and skin

Skin contact: Contact during a long period may cause light irritation.

Eye contact: May cause slight irritation.

Ingestion: Gastrointestinal complaints.

Inhalation: May cause irritation or asthma-like symptoms.

First aid and emergency measures:

Emergency services

First aider

First aid box

Shower

Eye wash

Wash affected area

Boot wash

First aid details:

In the event of exposure by inhalation: Remove to fresh air. If breathing is irregular or stopped, administer artificial respiration. If unconscious place in recovery position. Call a physician immediately.

In the event of splashes or contact with eyes: Make sure to remove any contact lenses from the eyes before rinsing. Promptly wash eyes with plenty of water while lifting the eye lids. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues.

In the event of splashes or contact with skin: Very large quantities should be rinsed off with water. If any reaction occurs, discontinue use.

In the event of swallowing: Immediately rinse mouth and provide fresh air. Get medical attention if any discomfort continues. Do not induce vomiting.

Spillage and environmental:

Mobility: Store in cool, well-ventilated area. Keep container tightly closed.

Accidental release: Collect as much as possible in a clean container for (preferable) reuse or disposal.

Water

Carbon Dioxide

Dry powder

Foam

Fire blanket

Raise alarm

Fire details:

No unusual hazards. No dangerous reactions known.

The vapour may be invisible, heavier than air and spread along ground. Vapours may form explosive mixtures with air. Flash back possible over considerable distance. In case of fire hazardous decomposition products may be produced such as: Carbon monoxide, Carbon dioxide (CO₂)
