Is the substance hazardous to health when:

Breathed in Swallowed In contact with skin In contact with eyes Other. Please specify

Health risks: There may be irritation to eyes on contact.

Skin contact: Generally the product does not irritate the skin.

Eye contact: There may be irritation and redness. The eyes may water profusely.

Ingestion: Might cause mild stomach upset.

Inhalation: Generally the product gives off little vapour and inhalation has no ill effects.

First aid and emergency measures:

Emergency services

First aider

First aid box

Shower

Eye wash

Wash affected area

Boot wash

First aid details:

After significant accidental inhalation: Remove casualty from exposure ensuring one's own safety whilst doing so.

After contact with eyes: Do not rub eyes, as additional cornea damage is possible by mechanical stress. Remove any contact lenses and open the eyelid(s) widely to flush eye(s) immediately by thoroughly rinsing with plenty of clean water for at least 15 minutes. If possible, use isotonic water (0.9% NaCl). Contact a specialist of occupational medicine or an eye specialist.

After skin contact: Wipe off with tissue and wash contaminated area.

After significant accidental ingestion: Wash out mouth with water. Do not induce vomiting. Consult a physician if symptoms persist.

Spillage and environmental:

Non-toxic.

Mobility: No special measures required.

Accidental release: Do not discharge into drains or rivers. Pick up mechanically then dilute residue with plenty of water.

Water

Carbon Dioxide

Dry powder

Foam

Fire blanket

Raise alarm

Fire details:

No special measures required.

Use fire extinguishing methods suitable to surrounding conditions.
