

Is the substance hazardous to health when:

Breathed in Swallowed In contact with skin In contact with eyes Other. Please specify

Health risks: May cause irritation to eyes and skin

Eyes : May irritate eyes. No adverse effects expected when used as directed.

Skin effect : May cause allergic skin reaction. No adverse effects expected when used as directed.

Inhalation : Intentional misuse by deliberately concentrating and inhaling contents can be harmful or fatal.

First aid and emergency measures:

Emergency services

First aider

First aid box

Shower

Eye wash

Wash affected area

Boot wash

First aid details:

After significant accidental inhalation: When symptoms occur: go into open air and ventilate suspected area. Respiratory problems: consult a doctor/medical service.

After contact with eyes: Do not rub eyes, as additional cornea damage is possible by mechanical stress. Remove any contact lenses and open the eyelid(s) widely to flush eye(s) immediately by thoroughly rinsing with plenty of clean water for at least 15 minutes. If possible, use isotonic water (0.9% NaCl). Contact a specialist of occupational medicine or an eye specialist.

After skin contact: When symptoms occur: rinse immediately with plenty of water. Take victim to a doctor if irritation persists.

After significant accidental ingestion: Give nothing or a little water to drink. Do not induce vomiting. Consult a doctor/medical service.

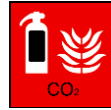

Spillage and environmental:

Mobility: Store in cool, well-ventilated area. Keep container tightly closed.

Accidental release: Small quantities of liquid spill: take up in non-combustible absorbent material and shovel into container for disposal. Large spills: contain released substance, pump into suitable containers. This material and its container must be disposed of in a safe way, and as per local legislation.

Water

Carbon Dioxide

Dry powder

Foam

Fire blanket

Raise alarm

Fire details:

Heating may cause an explosion.

In case of fire and/or explosion do not breathe fumes.

Exposure to decomposition products may be a hazard to health.

Advice for firefighters: In the event of fire, wear self-contained breathing apparatus. Wear suitable protective clothing and gloves.
