Is the substance hazardous to health when:

Breathed in	<input checked="" type="checkbox"/>	Swallowed	<input checked="" type="checkbox"/>	In contact with skin	<input checked="" type="checkbox"/>	In contact with eyes	<input checked="" type="checkbox"/>	Other. Please specify
-------------	-------------------------------------	-----------	-------------------------------------	----------------------	-------------------------------------	----------------------	-------------------------------------	-----------------------

Health risks: Has a narcotizing effect and vapours may cause drowsiness and dizziness. Repeated exposure may cause skin dryness or cracking. Irritating to eyes and respiratory system.

Skin contact: Generally the product does not irritate the skin. However, there may be irritation and redness at the site of contact for people with sensitive skin.

Eye contact: There may be irritation and redness. The eyes may water profusely.

Ingestion: There may be soreness and redness of the mouth and throat. Nausea and stomach pain may occur.

Inhalation: There may be irritation of the throat with a feeling of tightness in the chest, drowsiness and dizziness.

First aid and emergency measures:

						
Emergency services	First aider	First aid box	Shower	Eye wash	Wash affected area	Boot wash

First aid details:

After significant accidental inhalation: Remove casualty from exposure ensuring one's own safety whilst doing so. Keep casualty in a safe environment where there is fresh air until narcotizing effect has worn off.

After contact with eyes: Do not rub eyes, as additional cornea damage is possible by mechanical stress. Remove any contact lenses and open the eyelid(s) widely to flush eye(s) immediately by thoroughly rinsing with plenty of clean water for at least 20 minutes. If possible, use isotonic water (0.9% NaCl). Contact a specialist of occupational medicine or an eye specialist.

After skin contact: Wipe off with tissue and wash contaminated area.

After significant accidental ingestion: Wash out mouth with water. Do not induce vomiting. Immediately consult a physician.

Spillage and environmental:

Not regarded as dangerous for the environment. However, contamination of the aquatic and terrestrial environments should be avoided.

Mobility: Store in cool, well-ventilated area. Keep container tightly closed. Keep away from sources of ignition. Prevent the build-up of electrostatic charge in the immediate area. Ensure lighting and electrical equipment are not a source of ignition.

Accidental release: Extinguish all ignition sources. Avoid sparks, flames heat and smoking. Ventilate. Runoff or release to sewer, waterway or ground is forbidden. Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust) and place in containers. Containers must then be properly labelled with correct contents and hazard symbol.

Water

Carbon Dioxide

Dry powder

Foam

Fire blanket

Raise alarm

Fire details:

Highly flammable. In combustion emits toxic fumes. Forms explosive air-vapour mixture. Vapour may travel considerable distance to source of ignition and flash back.
