

**Is the substance hazardous to health when:**

Breathed in  Swallowed  In contact with skin  In contact with eyes  Other. Please specify

**Health risks:** Harmful by inhalation, in contact with skin and if swallowed. Irritating to eyes and respiratory system. May cause lung damage if swallowed.

**Skin contact:** There may be irritation and redness at the site of contact.

**Eye contact:** There may be irritation and redness. The eyes may water profusely.

**Ingestion:** There may be soreness and redness of the mouth and throat. Nausea and stomach pain may occur. There may be vomiting. If swallowed accidentally, the product may enter the lungs due to its low viscosity and lead to the rapid development of very serious pulmonary lesions.

**Inhalation:** There may be irritation of the throat with a feeling of tightness in the chest. In high concentrations, vapours are anaesthetic and may cause headache, fatigue, dizziness and central nervous system effects.

**First aid and emergency measures:**

Emergency services

First aider

First aid box

Shower

Eye wash

Wash affected area

Boot wash

**First aid details:**

**After significant accidental inhalation:** Remove casualty from exposure ensuring one's own safety whilst doing so. If unconscious place in the recovery position. Consult a physician.

**After contact with eyes:** Do not rub eyes, as additional cornea damage is possible by mechanical stress. Remove any contact lenses and open the eyelid(s) widely to flush eye(s) immediately by thoroughly rinsing with plenty of clean water for at least 15 minutes. If possible, use isotonic water (0.9% NaCl). Contact a specialist of occupational medicine or an eye specialist.

**After skin contact:** Wash the affected skin with soap and water. Seek medical treatment in all cases of irritation.

**After significant accidental ingestion:** Wash out mouth with water. Do not induce vomiting. Get immediate medical help.

**Spillage and environmental:**

Readily absorbed into soil. Not readily biodegradable. Toxic to aquatic organisms.

**Mobility:** Store in cool, well-ventilated area. Keep container tightly closed. Keep away from sources of ignition. Prevent the build-up of electrostatic charge in the immediate area. Ensure lighting and electrical equipment are not a source of ignition.

**Accidental release:** Do not discharge into drains or rivers. Contain the spillage using bunding then, absorb into dry earth or sand. Transfer to a closable, labelled salvage container for disposal by an appropriate method. Do not use equipment in clean-up procedure which may produce sparks.

Water

Carbon Dioxide

Dry powder

Foam

Fire blanket

Raise alarm

Highly flammable. In combustion emits toxic fumes. Forms explosive air-vapour mixture. Vapour may travel considerable distance to source of ignition and flash back. Fires in closed or confined spaces should be tackled by trained personnel who should wear self-contained breathing apparatus.
